Love Learning To Read

Levelling

The colour banding system allows an emerging reader to track their progression through the reading levels. Each book is assigned a colour band according to a comprehensive list of criteria, establishing a solid base for children’s developing reading skills. The colour banding system is one of the most popular levelling methods in the UK and is recognised by most schools and libraries. To find out more, you can download our ‘Teacher’s Guide’ from our website, which goes into more detail.
